PROPOSE ALTERING SYSTEM OF ROADS

State Highway Commission Submits Recommendations to Governor Davis

WOULD OMIT LORTON

Routes 1, 8, 9, 11 and 16 Materially Affected by Suggestions—Appeal For Funds.

Richmond, Va., Jan. 10.—Seven changes in the State Highway System adopted at its session in 1918, are recommended to Governor Westmoreland Davis in the initial report of the Highway Commission, which was made public last night.

Routes Nos. 1, 8, 9, 11 and 16 will be materially affected by the changes. They will be transmitted to the General Assembly at its coming session by Governor Davis. The legislators will take final action in either approving the recommendations and amending the State Highway System act to include them or refusing to change the routes which have already been designated.

The first recommendation for a change made in the report is in connection with Route No. 1, which runs from Washington through Richmond and Petersburg to the North Carolina line. The Highway Commission advocates that the word "Lorton" be eliminated in designating the road between Washington and Dumfries. The reason given for the omission is "so that the commission can consider and pass upon certain suggested changes in the route between Washington and Dumfries"

After hearing argument for and against changes in Route No. 1, between Solomon's store and a point where the Telegraph Road intersects the Richmond-Washington Highway, south of Fredericksburg, the commission refused to suggest any changes from the route as now located, which follows what is known as the Negro-foot-Chilesburg Road. It was also suggested to the commission that the road be fixed from Solomon's Store to Gum Tree and thence by way of the Ridge Road to a point a few miles south of Fredericksburg.

This proposed change was also refused recognition by the commission the reasons given in the report for the refusal to change the existing route are that there are no funds available for new work at the present time and that the money allocated to the route established by the General Assembly in 1918 is needed for maintenance in order to keep the route open for traffic.

BILL FOR BARS ON SHIPS

Representative Edmonds Would Lift Dry Lid Outside 3-Mile Zone

American passenger ships in foreign service would be allowed to operate bars under a bill introduced in the House of Representatives this week by Representative Edmonds, Pennsylvania.

Edmonds, who is the ranking Republican member of the Merchant Marine Committee, declared this legislation is necessary to enable vessels flying the United States flag to compete successfully with ships of other nations on international trade routes.

The proposed exemption would not extend to vessels on the Great Lakes nor in the American coastwise trade.

The bill would amend the National Prohibition Act (the Volstead enforcement law) so as to provide: "That nothing in this act shall prevent the carrying of liquors on passenger vessels of either American or foreign registry, provided that within the three mile limit of the shores of the United States no liquors shall be sold, and all containers properly sealed and locked under such regulations as required by the Commissioner of Internal Revenue."

KAISER GROWS CORPULENT

Trembling in Right Leg and Arm Has Greatly Increased

Berlin, Jan. 10.—The Hague correspondent of the Tageblatt gives a rather unusual picture of the former German Emperor in a lengthy article of the former ruler and his future prospects.

"The Kaiser himself—the Kaiser grown much old—has been struck in his vital strength," says the correspondent. "The trembling in the right arm and leg, which earlier was only just noticeable, has so increased that it is apparent at a glance and dominates his entire appearance. The Kaiser has become very corpulent, though he eats little."

Having talked with countless persons who have visited the former Emperor, the correspondent precedes his picture with a sharp criticism of some of the leading personalities, "who afterwards tell tactless stories and stories based or misunderstanding which circulate about the world."

He adds. "The Kaiser's attitude is still soldierly, but he appears to have grown shorter. It is noticeable how slowly he speaks in contradiction, to his old habits. He livens up only when remembrances of the old days come to him. This often occurs in the middle of a conversation.

"Only pity can be felt for the Kaiser on such occasions. No one who has seen him at Amerongen and is capable of responsible impression believes that this man, who is spiritually torn and shows it in his body, will ever play an active role in any form whatsoever. By the grinding experiences of war, the blow of a breakdown and worry about his future, which constantly torments him, the deeper impulses of his will are dulled."

In the opinion of the correspondent the former Emperor has purchased Doorn House as proof that he has given up all thoughts of returning to Germany.

"He no longer expresses the wish to return to Germany," says the writer. "He believes Germany is lost. More than ever he believes he has been betrayed by his counsellors and the whole people."

The former ruler's letters are censored by the Dutch authorities, who are declared to be not inconsiderate and not naturally severe. The correspondent makes an appeal for the former Emperor, saying:

"It depends upon Amerongen being left quiet and forgotten. The last affront that threatens its resident can thus be most easily avoided."

ROPER WANTS $2,000,000

Foresees Gigantic Task in Enforcing Prohibition

Enforcement of national prohibition which becomes effective in less than a week will be the largest job ever tackled by the Department of Internal Revenue, Commissioner Daniel C. Roper declared yesterday when he asked Congress to give him $2,000,000 more for that purpose. A similar amount has already been appropriated for making the United States the largest desert in the world.

"The additional money is needed," Roper said, "largely for the purpose of employing officers to guard the 69,200,000 gallons of liquor now in stock."

Because of the widely scattered location of these warehouses additional help is needed at once, Roper declared, "if the will of the people is to be fulfilled."

SPONSER FOR SHIP NAMED IN HER HONOR

Mrs. Morse Christens Clemence C. Morse Today

SIXTH SHIP LAUNCHED

Band Plays and Sirene Let Loose as Freighter Takes Maiden Plunge Into Potomac.

The honor of christening a ship named in her honor goes to Mrs. Clemence C. Morse, wife of Charles W. Morse, president of the United States Steamship Corporation and chairman of the board of directors of the Virginia Shipbuilding Corporation, who this morning smashed a bottle of wine over the nose of the big freighter bearing her name as she glided from the ways at that company's plant.

The launching was one of the most successful in the history of the company. It was witnessed by a number of government officials, officials from the United States Shipping Board and several thousand from this city.

A few minutes before the hour set for the launching, which was 10.45 a. m., workmen tugged at the blocks holding the big ship and at the appointed hour the Clemence C. Morse glided majestically from the ways into the Potomas as Minsters' band of Washington played and the big siren let loose and the crowd hurrahed. It marked the sixth launching at this plant.

Mrs. Morse and her husband, Charles W. Morse, posed for the camera men just before the launching.

Mrs. Morse carried a big bouquet of cream colored roses and the bottle of wine was wrapped with red, white and blue ribbon.

The big ship a 9,400 ton steel freighter was gaily bedecked with her set of colors and flags and 100 employees of the company were board the ship as she took her maiden plunge.

They threw bucketfulls of confetti from the ship, it falling on the guests on the launching platform.

Officials of the Virginia Shipbuilding Corporation expect that the Morse will be completed within the next sixty days.

The keel for another ship it was stated today will be laid Monday and three other ships are now on the ways.

Immediately following the launching a buffet luncheon was served the invited guests in the administration building.

ANOTHER SHIP LAUNCHED

The "Clemence C. Morse," the sixth steel steamship, constructed by the Virginia Shipbuilding Corporation at this place, glided from her cradle into the Potomac this morning. Fifteen minutes to eleven o'clock was the time fixed upon for the launching, and the huge vessel, according to "Ball" time, was in the water thirty seconds later.

As is usual at launchings, whistles were blown and other evidences of rejoicing indulged in.

The steamer "Betsy Bell," an elder sister ship, is now moored at the plant, having arrived this morning. Her whistle sounded strong and prolonged as the newcomer took her "dip."

Alexandria's contribution to the tonnage of the United States is of a steady increase. While the finishing touches to the "Clemence C. Morse" are in progress the keel of another ocean monster will be laid while the work of constructing other ships of the same class will continue in active operation.

STEEL STRIKE ENDED

The steel strikers at last admit that they are beaten and the leaders officially recognize a fact that has been plain to everybody else for many weeks. The surrender is accompanied by the explanations customary in such cases—that the defeat was due to the fact that "the Steel Corporation, with the active assistance of the press, the courts, the Federal troops, State police and many public officials, denied the steel workers the right of free speech, free assemblage and the right to organize," and thus "the arbitrary and ruthless misuse of power" turned what would have been assured victory into disaster.

The Baltimore Sun in commenting upon the late strike observes that "as a matter of fact, the strike leaders and the strike agitators beat the strike themselves. The auspices under which it was begun, the leadership under which it was undertaken, created alarm and suspicion in the public mind. And this suspicion and hostility were increased by the revealed character, record and utterances of the spokesmen of the strikers as the strike progressed. Whatever the offenses or shortcomings of the Steel Corporation, the general public could feel no sympathy for a movement promoted by such questionable sponsors.

"The press, in general, gave each side a fair hearing and a fair presentation of its case. There was no curb on free speech or, for the most part, on the right of free assemblage. There was a curb necessarily on the right of free riot and free destruction, because this is still a country of law and order.

"The steel strikers were unfortunate in their choice of leaders. If they are to succeed in gaining what they may have a right to demand they should put men of a different type in command."

FOREIGN LOANS

When we entered the European war our national debt was about one billion dollars. Today we owe about thirty billions. Before the war, if our yearly national expenses reached the billion dollar mark we were shocked. Today our Secretary of the Treasury is asking for six billions to meet one year's expenses. We are facing a treasury deficit of three billions.

To meet these sextupled governmental expenses we have, of course, increased the amount to be raised by taxing our people by six times. The result of this is reflected in every living cost.

The proposition that we now lend the allied governments thirteen billions is preposterous. We haven't got it to lend. To get it our government would have to borrow it from the American people, and so increase its bonded debt by this huge sum. It would be forced to increase taxes to raise the funds to meet the interest, for the United States pays the interest on its debt when the interest is due. The cost of living for Americans would be correspondingly increased.

During the war we lent the allies about nine and a half billions. They have never paid a cent of interest on this huge sum and frankly say that they cannot pay it. We have agreed to wait on them for several years for the interest.

When a man cannot keep up the interest on his existing loan he is in a poor position to ask for further and larger loans. This is one view of it. There is a more important view; we need our money for our own reconstruction. We must build our roads, we must rehabilitate our railroads, we must pay the interest on our immense debt and arrange for the ultimate payment of the principal.

We must practice economy and retrenchment. Above all we must be thrifty and diligent until we have raised this mortgage on America.

It is about time for Uncle Sam to take an inventory.

There is only one way in which the war impoverished countries of Europe can reestablish their solvency, and that way is work.

We must and we will help them in every way we can. We will supply them with raw materials and extend them reasonable credit, but these must come through private business enterprise and not through governmental bounty.

The money in the United States Treasury is the money of the American people. It is the product of their labor and their thrift. It should be spent for their interest alone.

HELP THE LEGISLATURE

The laws of this state are made by the people of the state. They confer their sovereign law-making powers on certain delegates whom they choose and who express their will and carry out their wishes in the General Assembly.

When a man chooses an agent to conduct a commercial enterprise or to transact an important business negotiation for him he keeps in close touch with that agent, keeps him constantly advised and confers with him upon all important details of the business.

The people of Virginia choose their Legislative agents, intrust them with matters vital to their happiness and prosperity and then give them no further thought until their labors are finished.

This is not treating the legislator fairly. In 99 cases out of a hundred he is sincerely anxious to make a success of the business intrusted to him, and to carry out the will of his constituents. The people whose interests he has in hand do not confer with him, do not advise him, do not keep him informed of their wishes. When his errors and his oversights have been written into the law then they rise up and put the blame on the legislator.

Considering this situation from the standpoint of the state it is an even worse business. Through lack of co-operation we fail to get the best out of our legislatures.

We are on the eve of a legislative session. Let us take some heed of and give some thought to the work of our delegates. Let us keep informed of the matters under their consideration. Let us talk things over with them so that the Acts of 1920 shall reflect the collective wisdom and oversight of the people of the Commonwealth.

Essex Motor Cars

How to Guarantee Spring Delivery of Hudson and Essex Open Models

No Large Money Outlay Required. Make Your Choice Now. We Will Store it For You and Insure You Against Disappointment.

In the light of the year just closed, it is not conjecture to assert that a shortage of Hudson and Essex cars is sure to recur this Spring.

More than 22,000 Essex cars were sold in the past twelve months. The factory capacity was increased time after time. Beginning with a daily production of 30 cars, it reached 125 cars daily.

Yet we were never able to overtake advance orders.

A similar condition was true with respect to Hudson.

You remember how scores waited in vain for delivery. Perhaps you were among those disappointed.

Practically our entire quota of both Hudson and Essex cars were sold weeks ahead. Few were able to get delivery who had not placed their orders ahead.

Settle the Delivery Worry Now

This year we have arranged a special plan to guarantee you delivery, during the acute spring rush of orders.

It will require no large outlay of money. You can place your order now. We will have your car ready for you on the day you want it.

Thus you dispose of all concern about getting your Hudson or Essex when you want it. It will be a source of satisfaction to know you are insured against having to accept some less wanted car, when the season for open types crowds the market with more buyers than we can supply.

If your preference is for a light car what choice equals the Essex?

It represents a new, unexpected value. It brings to the light car field such quality and fine performance as was hitherto found only among large costly cars.

Note the Quality of the Essex

If speed is your requirement see if the Essex does not meet it. Where luxury and finish are demanded compare the Essex with any car.

It is needless to speak of the Hudson. All know what it has done. Its records, which prove supremacy throughout the range of performance, are confirmed by the satisfaction that more than 80,000 owners know in their Super-Sixes.

The supply of Hudsons and of Essex has never been sufficient for the demand.

You can only insure yourself against disappointment in getting either of these popular cars, by placing your order under the convenient plan we have set forth above.

VIRGINIA NEWS

Daniel Grove was convicted in circuit court at Harrisonburg yesterday of attacking Blanche Riggleman, aged 13 years. Grove is 45 years of age. The jury brought in a verdict of seven years in the State penitentiary. Judge Haas, in discharging the jury, said he would not have been surprised had a more severe penalty been imposed.

Judge Asa D. Watkins, of Farmville, yesterday withdrew from the race for the Fourth district congressional seat to succeed Representative Walter A. Watson, who died December 24 in Washington. At the present time State Senator Patrick H. Drewry is the only aspirant to the office.

Charles Anderson Pitchford, a brakeman employed by the Southern Railway Company, was fined $25 in the Danville police court for following an argument with police concerning the rights of colored persons to enter passenger coaches with whites.

In operating since 1836, the Richmond, Fredericksburg and Potomac Railroad announces another year gone and not a bona fide passenger killed in its entire history. The State owns 16 per cent of the stock of the road. A meeting has been called for January 15 in the State corporation commission headquarters to consider the proposed merger of the Richmond, Fredericksburg and Potomac Railroad and the Washington-Southern Railroad under the name of the Richmond, Fredericksburg and Potomac Railroad.

Norfolk is fearing the worst water famine it has ever experienced. Numbers of people are sick from drinking the water which is so low in the lakes that fish are dying. Chlorine is being used to clear the water which gives it a bad taste. Billy Sunday and 15,000 people prayed for rain Thursday night to relieve the situation, but Norfolk awoke yesterday to see sunshine, with temperature like a day in June.

Richard Gallion, aged about 45 and unmarried, of Kenilworth, a suburb of Petersburg, was fatally injured last night when he was run down by an automobile driven by S. F. Cotton. The accident occurred on Cox road, a quarter of a mile from Petersburg. The injured man died in the automobile on his way to the Petersburg Hospital. Two other men named Kirkland and Marks, also of Kenilworth, were struck by the automobile and injured. According to Cotton he was on his way to his home at Kenilworth, when another automobile approached him with its lights burning brightly. He dimmed his lights and turned aside. The three men were walking along the road, but he could not see them. Cotton, who is a prominent business man, of Petersburg, gave $1,000 bail for his appearance at the coroner's inquest.

ADMITS PART IN KILLING

Edward Kneip Murdered Man, Alleged by Woman to Have Wronged Her

Rochester, N. Y., Jan. 10.—James F. Odell and his wife, Pearl, a girl of 18, yesterday afternoon were held for the grand jury on a charge of murder in the first degree in the killing of Edward Kneip, 23 years old.

The crime of which the couple are accused was committed Wednesday night, when Odell, posing as an officer, took Kneip from his place of employment to the Odell home, where an explanation was demanded of relations alleged to have been improper between Kneip and Mrs. Odell prior to her marriage a few weeks ago.

When Kneip refused to talk, he was taken to the outskirts of the city in an automobile and there, it is charged, beaten insensible with a heavy file. As the Odells recollected a letter that Kneip was supposed to have, they began a search of his clothing. Kneip sprang up and grappled with Odell.

The police say he was getting the better of the argument when Mrs. Odell stabbed Kneip with the file. Then Odell is alleged to have struck his opponent over the head with a heavy club. The wounds were fatal.

The Odells confessed the killing after being questioned by the police. At the jail yesterday Mrs. Odell broke down completely. "He was the cause of my downfall," she sobbed in speaking of Kneip. "He would have made a woman of the street of me."

Downstairs in solitary confinement her husband wept as he sought to justify his part in the crime.

Each of the accused tries to take the whole blame in order to shield the other. The affair is a striking parallel of the Thaw case in its psychological aspects.

BRITISH WORKERS BALK

London, Jan. 10.—The delegates of the Union of Railway Workers at a conference here yesterday decided to reject the government's terms for a settlement of the wage demands of workers in the lower grades. It was decided to refer the government's proposition back to the executive of the union for further negotiations with the government.

Hood Prices, being based absolutely on actual costs of highest quality materials and labor, are consistent with Hood Quality and Road Service

The Hood ideal of tire value and service — greatest average mileage actually delivered at lowest cost per mile — remains unshaken by unsettled conditions which are arising to confront and confuse both tire dealers and tire users.

With costs of materials and labor at a high point, with the cost of cotton showing increase, with labor constantly increasing in cost, with rubber only slightly weakening, and with overhead reduced to a point of efficiency seldom equaled in the tire business, Hood will maintain present prices and quality.

Any reduction under the above conditions would necessitate a reduction of quality or quantity of materials or of both. *We will not pull down our standard*—it has made Hood Tires famous the country over as the Quality Tires of America.

The quality of Hood Tires will be maintained.

Hood prices will continue to be—as in the past—THE standard by which *real* tire values can be safely judged, for to-day the *price* of a tire is the only true representation of comparative value—guarantees have come to mean nothing.

Ask us to show you records of Hood average mileage of last year. Let us prove to you WHY price, divided by miles actually delivered, makes the Hood the most economical tire you can buy.

Can you afford to be without Hoods?

Hood Tires give maximum miles at minimum cost. A bona-fide guarantee with every tire. Fabric guaranteed 8,000 miles; cord guaranteed 10,000 miles. Cut your car expense by equipping with Hoods.

If You Contemplate Buying a Home. Don't Delay. Do It Now!

Get the idea out of your mind that you ever again can purchase a home at the prices prevailing a few years ago. It can never be done, Alexandria will continue to grow, the talk of the pessimist can't retard its growth.

My reason for advising the purchase now is, because the cost of building material is showing an advance each month, and labor will most certainly not be lower.

It is the opinion of men most competent to forecast the future, that these conditions are certain to continue for some years. Therefore, it appears that you will be considering your best interest by purchasing now.

As the cost of building advances, so will rents be increased, a nd in sympathy with the cost of building, houses already constructed are certain to advance in price, then, too, because of the scarcity of houses, and the demand, larger initial payments will b e demanded. If you have, or can secure $500 or more, purchase your home now, or you will regret it later.

CONSTIPATION

And Sour Stomach Caused This Lady Much Suffering. Black-Draught Relieved.

Meadorsville, Ky.—Mrs. Pearl Patrick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable. I went to the doctor. He gave me some pills. They weakened me and seemed to tear up my digestion. They would gripe me and afterwards it seemed I was more constipated than before.

I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not bad to swallow. My digestion soon improved. I got well of the sour stomach, my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape.

I cannot say too much for Black-Draught for it is the finest laxative one can use."

Thedford's Black-Draught has for many years been found of great value in the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action leaving no bad after-efects, it has won the praise of thousands of people who have used it.

DANGERS OF A COLD

Alexandria People Will Do Well to Heed Them

Many bad cases of kidney trouble result from a cold or chill. Congested kidneys fall behind in filtering the poison-laden blood and backache, headache, dizziness and disordered kidney action follow. Don't neglect a cold. Use Doan's Kidney Pills at the first sign of kidney trouble. Follow this Alexandria resident's example:

C. E. Davis, fireman, truck and engine company No. 1, says: "I have used Doan's Kidney Pills off and on for a good many years and they have always given me wonderful relief. My trouble has been brought on by being out in all kinds of weather and catching colds which settle in my kidneys. Then my back gets sore and weak and I can hardly get around. The kidney secretions will pass irregularly and make me get up often at night. However, I find I can rely on Doan's Kidney Pills to give me the desired relief. My kidneys have never been in bad condition since I started using Doan's Kidney Pills for those attacks."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Davis had. Foster Milburn Co., Mfgrs., Buffalo, N. Y.

WELLINGTON VILLA

Water front properties in good neighborhoods and well located at attractive prices are exceptionally scarce and will be much more so as spring approaches It would be advisable therefore for any one seeking a place of this kind to act as the opportunity presents itself.

We have a seven room bungalow, two acres of ground that we are going to sell for $6750.00.

The house has bath, electric lights, water, improved pipeless furnace and porches commanding one of the finest views on the Potomac river. Two hundred feet of water front on which can be erected additional boat houses etc., making this one ideal spot for a place of its kind. This property is worth today considerably more money and the owners have very good reasons for disposing of it. Would consider trading for city property.
